

DUPONT IN INDIA

Background

- DuPont India was established as wholly-owned subsidiary of US-based DuPont in 1994
- Association with India began in 1802, when the first shipment of raw materials for black powder was imported from India into the US
- Today provides offerings across a variety of market segments including agriculture, food and nutrition, healthcare, home and construction, safety and protection (including defense), renewable energy, electronics, transportation, and infrastructure
- Works collaboratively with customers, partners, government, and others to deliver science-powered solutions that address India's needs
- Opened its Bangladesh office in 2010 and its Sri Lanka subsidiary in 2011
- DuPont Knowledge Centre opened in 2008 and DuPont India Innovation Centre in 2011

People

- DuPont India and subsidiaries employ more than 4000 people as on December 31, 2013

Leadership

- Balvinder Kalsi became President – South Asia, DuPont, in April 2014. In his 22 year DuPont career, he has held a number of business and functional leadership positions.
